

SC 20E-LP

Scanjet tank cleaning equipment

KEY FEATURES

- + Electrical external drive
- + Fixed or portable
- + Bayonet coupling
- + High impact
- + Low volume

The SC 20E-LP is a tank cleaning machine specially developed for the cleaning of small industrial tanks where product residues are hard to remove and cleaning volumes need to be kept to a minimum. The device can either be used on a fixed installed or portable basis and is available in two, three or four nozzle configurations. The external drive is an electrical motor being 230V(AC) although other alternatives are available on request.

Tank connection is as standard a universal flange making it easy to remove the machine from the tank without the need for tools.

Quality Control, Compliances & Certifications

The SC 20E-LP is produced in accordance with ISO 9001 Quality Standards and our certificate of conformity and accreditation is available on request.

Additionally, the SC 20E-LP conforms to United States ASME standards for construction and others are available upon request.

Typical applications

- + Paints and coatings process vessels
- + Solvent tanks
- + Totes and IBC's
- + Heavy duty process vessels
